EXAMINER'S AMENDMENT/REASONS FOR ALLOWANCE

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Thomas C. Basso on 5/03/04.

Amend claim 19.

19. (Amended) A Melt-spun polysulfone semipermeable membrane, the melt-spun polysulfone semipermeable membrane consisting essentially of a polysulfone compound and a solvent for the polysulfone compound wherein the melt-spun polysulfone semipermeable membrane has a homogeneous structure such that the melt-spun polysulfone semipermeable membrane has a substantially uniform pore structure through a thickness of the melt-spun polysulfone semipermeable membrane; wherein the solvent is selected from the group consisting of tetramethylene sulfone, antipyrine, -valerolactam, diethylphthalate, and mixtures thereof.

Cancel claim 21.

2. The following is an examiner's statement of reasons for allowance: claims 19-20, and 22-37 are allowed over the prior art of record. The prior art of record teach membranes polysulfone membrane with homogeneous pores through the structure, however the membranes are not made from the composition and process as claimed. Melt-spun includes a melting step of the mixture of polymer and solvent and or non-

solvent follow by extrusion and quenching to form the pores on the membrane. Based on the process, the membranes properties in addition to the pores are expected to be distinct from a membrane made by wet or dry spinning process, or from membranes by a distinct polymer/solvent mixture. Kopp et al teach melt-spun polysulfone membrane including microporous surface and through out the thickness of the membrane, however, the listed solvents claimed is not suggested; the addition of non-solvents is also no suggested in the patent.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ana M Fortuna whose telephone number is (571) 272-1141. The examiner can normally be reached on 9:30-6:00 M-F.
